## Size

## Construction

The picot edges are worked within the coaster pattern. You will work into both sides of the foundation chain. It may be a good idea to make your chain loose, so you can work into both sides easily. Working into both sides of the foundation chain allows for creating the picot edge to start. Then you'll be working the single crochet rows, starting each one with an edge picot. Finally, the last row will mirror the first. You'll crochet the picots and single crochets across this last row. When you finish this row, the border is ready made!
